

HILLARY ADARE — EVIDENCE PORTFOLIO TRACKER

Exceptional Promise (Digital Technology) — Tech Nation Endorsement

This tracks the evidence pack she is building for the Exceptional Promise case. Tech Nation requires a minimum of 2 documents proving recognition, plus 2 documents each for 2 of the 5 eligibility criteria — a minimum of 6 documents, maximum of 10, none reused across categories, each up to 3 sides of A4. CV and recommendation letters are separate and do not count toward this total.

Recognition (minimum 2 documents)

Proves she is recognised by others as having the potential to become a leading talent.

Formatting rules — non-negotiable

- Each document: maximum 3 sides of A4.
- No document can be used as evidence for more than one criterion, even if it's relevant to both.
- If original documents are not in English, certified translations will be needed.

- Where an official letter isn't available in time, a signed and dated letter from the relevant programme administrator confirming the facts is an acceptable substitute — this is worth requesting now given the timeline.

Where things stand

- Recognition: complete. Both documents in hand.
- Criterion 1: Absa–Mastercard confirmation just needs downloading and formatting into a compliant evidence document. The Wonfliki product evidence pack is the one open item — drafted as a separate document alongside this tracker.
- Criterion 3: LINC grant letter in hand. Adwumawura letter expected by end of month — this is now the critical-path item for the whole evidence stage.
- Once all 6 are finalised, cross-check each against its specific criterion wording before submission, not just topic-matched.
